# ACS-900-RM-19

Cisco Rack Kit For 900 Series | 19-Inch Standard Rack | ISR C921 / C931

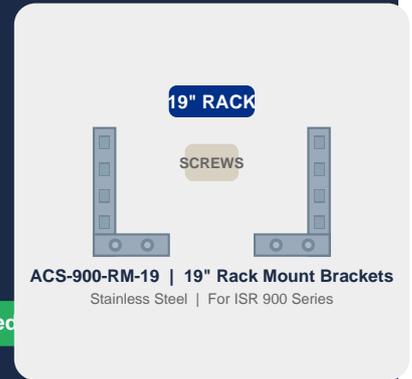

Part Number: ACS-900-RM-19 · Compatible: C921-4P / C931-4P / C921-4PLTEXX

19" Rack

ISR 900 Series

Stainless Steel

CE Certified

## PRODUCT OVERVIEW

The **Cisco / ACS-900-RM-19 / Cisco Rack Kit For 900 Series** is a genuine, factory-sealed Cisco rack mounting kit designed specifically for installing Cisco 900 Series Integrated Services Routers (ISRs) into standard 19-inch equipment racks. Compatible with Cisco ISR models C921-4P, C931-4P, and C921-4PLTEXX, this kit provides all the mechanical hardware needed to securely and professionally mount your Cisco router in any data centre rack, server room cabinet, or wall-mount enclosure. Furthermore, as a genuine Cisco accessory, the ACS-900-RM-19 is engineered to Cisco's own manufacturing tolerances, ensuring a perfect fit and eliminating the alignment issues associated with generic third-party mounting solutions — while preserving the router's full Cisco warranty and support entitlement. The kit ships with stainless steel mounting brackets, all fixing screws, and a quick installation guide, so deployment is fast and straightforward. Additionally, the stainless steel construction delivers the rigidity and long-term durability required in professional rack environments where vibration, cable weight, and repeated access are everyday realities. Consequently, once installed, the Cisco 900 Series ISR sits securely in the rack with no flex or movement, presenting a clean, professional front-panel appearance aligned with adjacent 19-inch equipment. Moreover, the kit carries CE certification, confirming compliance with European safety and electromagnetic standards for commercial network deployments.

## KEY FEATURES

### | Genuine Cisco Factory-Sealed Kit

Original Cisco accessory engineered specifically for ISR 900 Series routers — guarantees perfect fit and preserves full Cisco warranty and TAC support entitlement.

### | 19-Inch Standard Rack Compatibility

Mounts C921-4P, C931-4P, and C921-4PLTEXX cleanly into any standard 19-inch equipment rack, server cabinet, or wall-mount enclosure.

### | Stainless Steel Bracket Construction

Heavy-duty stainless steel brackets provide rigidity, vibration resistance, and long-term durability in professional data centre and branch office rack environments.

### | Complete Kit — All Hardware Included

Ships with mounting brackets, all fixing screws, and a quick installation guide. No additional parts needed for immediate deployment.

### | CE Certified

Fully compliant with CE safety and electromagnetic standards for professional use in commercial, enterprise, and service provider network environments.

## TECHNICAL SPECIFICATIONS

PARAMETER	SPECIFICATION / DETAIL
GENERAL	

PARAMETER	SPECIFICATION / DETAIL
Brand	Cisco Systems, Inc.
Part Number	ACS-900-RM-19
Product Type	19-Inch Rack Mounting Kit
Product Line	Cisco ISR 900 Series Accessories
Condition	New — Factory Sealed
<b>COMPATIBILITY</b>	
Compatible Devices	Cisco C921-4P, C931-4P, C921-4PLTEXX
Router Series	Cisco 900 Series Integrated Services Routers (ISR)
Rack Standard	19-inch standard EIA rack
<b>PHYSICAL &amp; MATERIAL</b>	
Bracket Material	Stainless steel
Finish / Colour	Steel — silver / grey metallic
Installation	Screw-fit to standard 19-inch rack rails
<b>KIT CONTENTS</b>	
Included Items	Mounting brackets (x2), fixing screws, quick installation guide
Additional Parts Required	None — complete kit
<b>COMPLIANCE &amp; APPLICATION</b>	
Certifications	CE
Application	Data centre, server room, branch office, CPE deployment
Manufacturer Page	<a href="https://www.cisco.com">https://www.cisco.com</a> — ISR 900 Series Accessories

## APPLICATIONS & USE CASES

Data Centre Deployments	Rack-mount Cisco ISR 900 Series routers into standard 19-inch data centre equipment rows.
Branch Office Networks	Professional ISR installation in branch office IDF/MDF cabinets and wall-mount enclosures.
Service Provider CPE	Clean, secure CPE mounting in telecom rooms and customer premise rack installations.
Network Standardisation	Uniform rack mounting across multi-site Cisco ISR 900 Series deployments.
