

D-Link / KVM-410HP / 4 Port HDMI KVM Switch

Technical Datasheet

Product Overview

The D-Link KVM-410HP is a 4-port HDMI KVM switch that allows a single keyboard, mouse, and HDMI monitor to control up to four computers. It is designed for professional IT environments, offices, and control rooms where efficient system management and desk space optimization are required. The device supports hotkey and push-button switching, USB 2.0 peripherals, and audio sharing between connected systems.

Key Features

- 4 HDMI computer inputs
- USB 2.0 keyboard and mouse support
- Push-button and hotkey switching
- Audio input and output support
- Durable metal enclosure

Technical Specifications
