

Datasheet

Premium Line 106124015 — Cat6 180° Toolless Module

Product Overview

The Premium Line 106124015 Cat6 180° Toolless Module is a high-performance keystone jack designed for structured cabling systems. It supports reliable Gigabit Ethernet transmission and allows quick termination without special tools, making installation fast and efficient.

Key Features

- Toolless termination for fast installation
- 180° cable entry design
- Supports Cat6 performance up to 250 MHz
- Compatible with T568A and T568B wiring
- Suitable for patch panels, faceplates, and surface boxes
- Durable construction for long service life

Technical Specifications

Category	Cat6
Connector Type	RJ45 Keystone Jack
Termination	Toolless IDC
Cable Entry	180°
Frequency	Up to 250 MHz
Standards	TIA/EIA568, ISO/IEC 11801
Conductor Size	22–26 AWG
Housing Material	Highimpact thermoplastic
Contact Plating	Goldplated contacts
Operating Temperature	-10°C to +60°C

Applications

- Structured cabling installations
- Office and enterprise networks
- Data centers
- Telecommunication rooms

- LAN infrastructure upgrades

Ordering Information

Part Number: 106124015

Manufacturer: Premium Line Systems
